Future developments

The Limited company University of Applied Sciences at the Åbo Akademi University maintains Novia UAS since 2008

From 2016: More than co-operation but less than a merger

Facilities, IT, licences, student services, library

Move from Nunnankatu 2017

Long term development: Bachelor degrees at Novia, Master degrees at Åbo Akademi

International relations

Focus areas: The Nordic countries, the Baltic Sea Region, Erasmus-area and China

Special characteristic: more short (< 3 months) than long (> 3 months) exchanges

	2015	2014	2013
Outgoing students > 3 months	178	146	101
Outgoing students < 3 months	181	261	235

Nordplus enables short exchanges

Novia participates in more than 30 Nordplus networks
